Reconnective Healing® & The Reconnection®

(RH: in-person & distance sessions; TR: in-person only)

I completed my training as a certified practitioner of **Reconnective Healing®** and **The Reconnection®** with Dr. Eric Pearl in April 2002.

Dr. Eric Pearl is the acknowledged person through which this process is evolving and through which this healing work is being introduced to the world. He is an internationally renowned healer and recognizes Reconnective Healing® and The Reconnection® as coming from a higher source. Since being introduced in 1993, these frequencies have continued to baffle the medical community. People receiving this form of energy healing report seeing angels and experiencing miraculous healings from cancers, AIDS-related diseases and other serious afflictions. Through offering certification classes, Dr. Pearl has passed this gift on to many who have become proficient healers in their own right. For more information, including case studies, please read Dr. Pearl's best-selling book, *The Reconnection*. You may also go to his website at www.thereconnection.com.

Reconnective Healing® involves the practitioner using his or her hands to focus a flow of high level, fifth-dimensional energy into the auric field of the client. It does not involve any physical touching or manipulation. Reconnective Healing® assists in renewing the human body and energy system at the physical, mental, emotional, and spiritual levels. While it helps one to heal, it does not enable one to attain the frequency levels of The Reconnection® (see below). However, Reconnective Healing® is a very supportive healing modality, and though not a prerequisite, it is often helpful to have one or two reconnective healing sessions prior to receiving The Reconnection®. These sessions may be done from a distance.

The Reconnection® links us to a fifth-dimensional circulatory system from which the basic energies for the renewal functions of the human energy system are drawn. Originally, we had 12 strands of DNA which wove us into universe. Now we function on fewer strands, and most people perceive themselves as separate from creation. The Reconnection regenerates these dormant strands of DNA, and ties us back into the universe and its meridian lines (called axiatonal lines by J.J. Hurtak in "The Book of Knowledge, The Keys of Enoch"). The meridian lines (sometimes also called the acupuncture lines) of the human body were also connected to the grid lines that encircle the planet and cross at acknowledged power places such as Machu Picchu, Stonehenge and Sedona. These grid lines were designed to continue out and connect humans to an even larger grid that links into the entire universe. Over time we became disconnected from these axiatonal lines.

The Reconnection® reactivates the axiatonal lines, which allows for the exchange of light codes and information. These lines allow one to access and make use of higher universal frequencies of living light for regeneration and renewal of body, mind, and spirit and evolution. They also raise our vibrations so that we are able to maintain the higher frequencies, enabling us to reconnect to all of creation and universal consciousness. This process is explained more fully in "The Book of Knowledge, The Keys of Enoch", 3.1.7., written by J.J. Hurtak.

The Reconnection® is completed during two sessions, which ideally are spaced one or two days apart, yet may also be completed with a longer interval

"Emotions are the next frontier to be understood and conquered. To manage our emotions is not to drug them or suppress them, but to understand them so that we can intelligently direct our emotional energies and intentions...It's time for human beings to grow up emotionally, to mature into emotionally managed and responsible citizens. No magic pill will do it."
